# President's Message

On behalf of the Wimmera Machinery Field Days Committee and Staff, we welcome you to the 2024 Wimmera Machinery Field Days which is our 60th event!

We are very proud of our event and we thank you for supporting it. I'd also like to extend a special thankyou to our Exhibitors and Sponsors who are the backbone of our event and the tireless community group volunteers who contribute to its smooth running.

Much has changed in the last 6 decades in Agriculture. Of course, the machinery has changed, and there may be less farmers doing more, but we now grow a greater diversity of

crops and have adapted our farming systems to be more climate resilient and sustainable. At the same time we grow more food, fibre and energy at a lower cost. We thank our forebears for initiating this great agriculture showcase which has enriched our farms and communities. So take a look and wonder at the progression of agriculture in the Wimmera and ponder what it will look like in another 60 years.

Enjoy your time with us and I hope to see you again at the Wimmera Machinery Field Days in 2025.

**Tim Rethus, President**  
**Wimmera Machinery Field Days**

# Manager's Message

Welcome to the 60th Annual Wimmera Machinery Field Days. What a fantastic milestone to celebrate this year! Credit goes to the original committee who were dedicated to getting the field days up and running in the Wimmera and members of the committee through out the years that have kept the field days going. We have various displays and memorabilia around the site to help commemorate our 60 years. Check out our historical timeline on display in the Moore Exhibition Centre, as well as the cars, trucks and machinery showcased out the front.

As always, a big thanks to all of our exhibitors for 2024, both returning and new. It is certainly very exciting to see the site at near capacity again. Without our exhibitors we wouldn't have a field day, so we are always keen to hear feedback and work with you to make our field days even bigger and better.

Another big thank you must go to all of our corporate partners and sponsors. We have a large number of organisations and companies that support the field days each year and without this support the field days wouldn't be what it is today. Please show your support by visiting the sponsors and corporate partners listed at the back of his program, both during the field days and throughout the year.

The Local Market Square is back again this year, with the continued support of 1089 3WM. We welcome back producers from last year and also new businesses in the arts and craft sector. Please make sure you go to the square and see what they have to offer.

There is also a wide range of attractions again including Black Snake reptile and wildlife display, Rev It Up racing simulator, Level

Up Gaming in the Auditorium, the Dunmunkle Sumpoilers, helicopter rides, mini train rides, the animal nursery, the kids zone, the MikMaks on stage on Wednesday as well as new attractions for 2024 – Laser Tag and the Sandy Creek Clydesdales. Check out the program to see when they are doing their blacksmithing and harnessing demonstrations.

A big thanks to Partners in Ag for coordinating the Ag Ed Quest again. It is fantastic to see so many school children attend the field days. It such a great opportunity to showcase our field days and the many career pathways agriculture has to offer. Thanks to WIM resource for their continued support of this initiative.

Make sure you visit the new look country lifestyle area, with a much larger range of exhibitors this year. Welcome to all of our new exhibitors in this area and we hope you enjoy your time with us. Thanks to Breuers Party Hire for the efforts in setting up the new look Prickly Moses Beer Garden.

Thanks to all the community groups that contribute to the successful running of the field days. It is certainly great to see an event of this size in the region and we take pride in involving the community and giving back to the many local groups and organisations that assist us.

A big thanks to the WMFD Committee for their work and support to get the field days up and running and lastly a bit thanks to the team in the office for their dedication and commitment to making the field days a success.

I hope you enjoy celebrating our 60 years at the 2024 Wimmera Machinery Field Days.

**Vanessa Lenehan, Manager**  
**Wimmera Machinery Field Days**

## Field Days History

A group of regional Wimmera farmers and agricultural association members formed a Machinery Field Days committee and a decision was made to host the inaugural Wimmera Machinery Field Days for two days in the first week in March in 1963 on a site provided by Longerenong Agricultural College.

There were approximately 80 exhibitors in attendance, a significant machinery demonstration program was carried out and over 3000 people visited.

It is now Victoria's longest running Field Days and Australia's premier broad acre and machinery focused event.

The Wimmera Machinery Field Days Inc is a not for profit community based organisation formed in 1962 made up of regional volunteer members from farming and agricultural industry backgrounds. The WMFD Committee has been operating the Field Days during the first week of March every year since 1963.

The Wimmera Machinery Field Days has grown to become one of Australia's largest broadacre and machinery field days and country Victoria's biggest annual event.

## FUTURE DATES

**2025 - 4,5,6 March**  
**2026 - 3,4,5 March**

WimmeraEventsCentre

On behalf of Horsham Rural City Council, it is my pleasure to welcome you to the 60th Wimmera Machinery Field Days. This is an amazing achievement and testament to the vision, hard work and dedication of a small group of volunteers and staff.

Agriculture is the main industry in Western Victoria and field days are an opportunity for farmers and industry to learn from each other and share challenges, innovative solutions and technological advances.

Plentiful rainfall over the past few seasons has increased the confidence in the farming sector. Farmers are always looking for new and innovative ways to enhance productivity and efficiency within their businesses and I'm sure the breadth of machinery, tools and gadgets on display at these field days will fill this need.

It is wonderful to once again see the site full and buzzing with exhibitors and patrons attending this important agricultural trade fair. I have no doubt that social connections and interactions will be a highlight over these 3 days.

Congratulations to President Tim Rethus, the volunteer committee and staff for your hard work and commitment on delivering another successful event.

Council is a proud supporter of the Wimmera Machinery Field Days. If you have queries or questions for Council or would simply like to chat, please call into our site in the Moore Pavilion.

**Cr Robyn Gulline**  
**Mayor, Horsham Rural City Council**

## Services

### Field Days Management Office

Head to the Field Days Management Office in the centre of the site and chat to the friendly staff and Field Days committee who can assist with almost everything.

### ATM

ATM withdrawal service will be available located at the Main Office under the verandah area.

### First Aid

The team from 'Emergency Medical Response' are regionally based and their professional and qualified staff are fully equipped. Medical response vehicles are on site and the Field Days First Aid station is located next to the management office.

On site each day.

### Parents & Baby's

A well-equipped Family Kids Zone is situated in the Sponsors Pavillion behind the office and is operated by Green Park Kindergarten. There are activities for under 6's and a place to have a break, a change station and private feeding area.

### Toilets

See the site map for locations including disabled access in the Alan Heard Pavilion. Wider access/larger cubicles suited to disabled access and prams in the Country Lifestyle area east and west of the pavilion.

### Food & Drink

Hot BBQ food, cold drinks and fresh sandwiches are available at the four Kiosks around the site. The kiosks and drinks booths are all operated by local community groups. To support the community kiosks there are coffee vans, and an exciting mix of food trucks and gourmet vendors.

## Supporting the Community

The Wimmera Machinery Field Days is a not for profit community based organisation. The Field Days provides opportunities to numerous community, service groups and sporting clubs to assist with the operation of key tasks, duties and services each year. Over 300 volunteers are involved in the Field Days using it as an opportunity to raise significant funds for their respective clubs and organisations.

### Community Groups involved with the Field Days this year include:

- Antwerp Tennis Club
- CFA Doon Brigade
- Green Park Kindergarten Horsham
- Holy Trinity Lutheran College
- Holy Trinity Lutheran College PTFA
- Horsham Miniature Railway Association
- Horsham Scouts Association
- Laharum Sports Inc
- Laharum Football Netball Club
- Laneway Cafe Without Borders
- Longerenong Agricultural College
- Minyip Murtoa Football Netball Club
- Natimuk United Football Netball Club
- Pimpinio Football Netball Club
- Rupanyup Football Netball Club
- Taylors Lake Football Netball Club

### A Community Service

The Wimmera Machinery Field Days each year provides complimentary passes to a large number of community health and aged care facilities from throughout the region enabling those patrons to visit the Field Days each year for free.

### Community Exhibitor Sites at the Field Days

Each year the Field Days provides complimentary exhibitor sites and free entry to members of a large number of community based groups and essential service organisations.

### Participating organisations exhibiting this year include:

- Ambulance Victoria
- Cancer Council of Victoria
- Dunmunkle Sump Oilers
- Horsham Lapidary Club
- Horsham Men's Shed
- Victoria Police
- Wimmera Hearing Society (Free Wimmera Hearing)
- Wimmera Prostate Group

### A Community Site – Wimmera Events Centre

Any surplus revenue collected from operating the Field Days each year is used directly to fund and cover costs of the operation of the annual Field Days event which is significant. Operating surplus is also directly reinvested back into the Wimmera Events Centre site. It enables the entire site to continue to be improved for a wide variety of events throughout the year for an ever increasing range of new business and community user groups needing a major events venue in the region.

PARTNERS IN AG

### **School Activities Program**

#### **Primary and Junior Schools ~ Middle and Secondary Schools**

A focused fun and engaging format for all visiting schools to engage with the Field Days, meet up with ag industry partners, consider future pathways in ag and see all the latest ag machinery and technology on display at the Field Days.

**Primary Program** is designed to be completed in larger groups with teacher supervision and includes a planned itinerary including children's activities. The program includes in-school classroom activities to prepare students for the Field Days.

**Secondary Program** will include a Careers in Ag panel discussion on Tuesday and Thursday, where students will hear from a variety of Wimmera people currently working or studying in agriculture. The panel discussion will highlight the wide range of career opportunities in agriculture and the Wimmera.

#### **Agriculture Students (Secondary)**

Aligned with current curriculum topics, Agriculture students will receive a specific Quest that will challenge their existing knowledge and connect them with exhibitors who have a direct link to agriculture-related products and services. Designed to get students thinking and working together, this new approach to aligning the program to the current school curriculum provides real context to student's learning whilst meeting with potential employers in the region.

Field Days

Free PARCEL PICK UP & COURIER SERVICE

# Field Days Courier Service

**Purchase confidently and ease the load by having all your Field Days bargains picked up and waiting for you to load into your car by following these easy steps:**

### Step 1

Ask at the Field Days office or at the exhibitor site where you purchased your goods about the parcel pick up service and for some courier dockets to tag your items.

### Step 2

Your goods once purchased will be tagged, a pick up docket will need to be taken to the Field Days office and your purchased goods will then be ready for collection from the exhibitors site.

### Step 3

Our on-site Courier Utes will pick up your purchased goods and transport them to the Field Days Courier Depot where they will be stored securely ready for pick up when you leave the Field Days.

proudly sponsored by

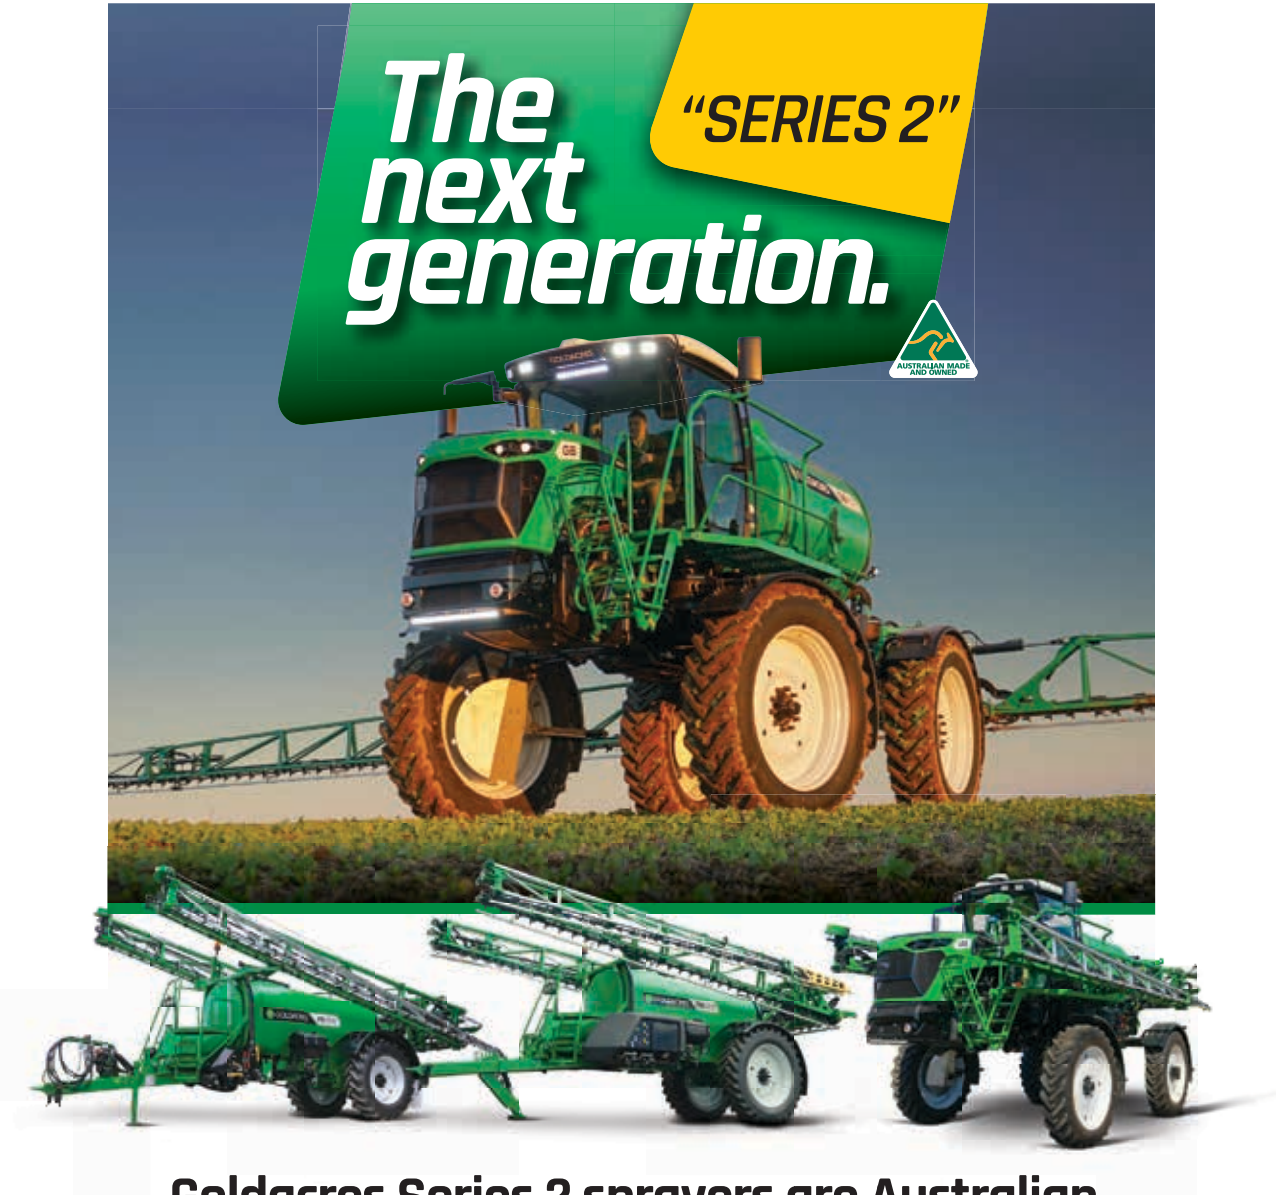

Note: Goods to be a maximum of 50kgs. Larger items may not be able to be transported. Confirm with management & courier operators. The Courier Depot closes at 5.30pm each day. WMFD and Courier operators will not be held responsible for goods remaining after 5.30pm

2024 WIMMERA MACHINERY FIELD DAYS

# New Releases 2024

Company Name	Product Description	Site Number
Airtec Corporation	AXS. Designed for trucks, trailers and dollys fitted with air bag suspension. A smart solution suitable for various truck and trailer combinations. Made with an aluminium base and polycarbonate cover, both high impact materials, the AXS guarantees durability and weather resistance. The Airtec Smartphone App allows you to check your weights from your smartphone and save them for later reference. Australian designed and manufactured.	D44-45
AKRON (Bridgewater Farmware)	AKRON 9900HE Grain bag inloader, refined design, easy to load, simple to use, larger capacity, 900T/HR.	X6
Bruder Australia	Bruder Material Mover Ideal for cleaning spills after material transfer operations (auger etc) quickly and efficiently with minimal mechanical damage to the media being moved. Cleaning up spills and transferring material from one location to the next has never been easier than with the Guardair Material Mover. With 2 size options with different compressed air consumption for greater versatility, the Material Mover is an excellent product to use compressed air for liquids, small solids, and powder media transfers.	M2
Bute Discs	Turbine Blade is a New Patented Blade that is designed to Biodegrade Standing Residue into the soils without working the soil during operation. Keeping your valuable sub soil moisture and Biodegrading last years stubble makes for a perfect seed bed for growing higher yields.	A34-36
Eye Muffs	EyeMuffs G6 Wireless, 1st. All designed, assembled and packaged in Canberra. Least something good came out of Canberra. LOL. Equipped with high-definition Bass drivers, the EyeMuffs G6 Wireless deliver an immersive audio experience. Feel the beat, hear every note crystal clear! Whether you're a music enthusiast, a podcast lover, or just listen to the radio, the EyeMuffs G6 Wireless will elevate your audio experience to a new heights.	Moore Exhibition Centre

New Releases 2024

Company Name	Product Description	Site Number
John Shearer	Mk4 Seederbar. John Shearer's Mk4 Universal seeder bar is a heavy-duty machine set to top the market. Wider wheels and tyres grant better floatation in soft soil and with a maximum front tine breakout pressure of 620kg. The main frame includes four rows of 100mm x 100mm mounting ranks, of which the front and rear centre section beams are 9mm thick steel tube. Both single fold, with narrow and standard centre sections, and double fold (standard centre only) versions able to fold for road transport. For the latest on the Mk4 seeder bar and Active-Pack technology, keep up to date at johnshearer.com.au	P3-6
Leersen Electronics	BaleTime - A hay monitor to let the hay balers know when to start baling their hay. Sends a SMS when it's time to bale	Alan Heard Pavilion
Mech-Elec Air and Automation	The TradeComp M20, is an Air Compressor designed and made locally in Shepparton Victoria. Made with quality components to be durable and reliable for our Australian conditions. Designed vertically to efficiently utilise floor space, the frame is dual purpose, being an air receiver for air storage and protecting the compressor's components. Australian designed, manufactured and owned.	K5-6
Midland Trailers	4m Ag Spec Drop Deck Widener. New and improved 4m Widener, capacity of 30 tonne at 4m, available in combination Spec or single if you are chasing higher weights. Options include some of the following: Layback Bifold ramps, Flip over front ramps to top deck, Steer axles, Lift axles, Road train compatible, On board or truck hydraulics.	N3-7
PB Seeds	GIA Metro is the first lentil to combine imidazolinone and metribuzin herbicide tolerances. This unique combination of herbicide tolerance will expand weed control options in lentil, particularly in light textured soils prone to damage from the application of Group 5 (previously Group C) herbicides. GIA Metro is a large, lens shape red lentil with a grey seed coat.	Alan Heard Pavilion
Primary Sales Australia	The Adapt-T Seeding System is adaptive, adjustable and designed with sustainability in mind. Featuring an adjustable continuous point, and the ability to switch from single to dual shoot, in-line to paired row and compatible with liquid systems, granular fertiliser and wetter agents. Available to Morris Quantum/C2, Horsch Sprinter and Bourgault Paralink.	N16-18
Sawquip	The SAWQUIP Telehandler Hedging Saw is designed to attach to the end of your telehandler for pruning, trimming and firewood applications. Designed for trimming back windbreaks, overhanging trees, roadsides the hedging saw is capable of cutting medium to large size limbs creating a clean and neat finish.	C10-11
SCT Port Logistics	SCT Rail has the ability to help exporters scale up from 200 containers to 400 containers with rail capabilities positioned in Horsham. This is a unique capability for the Wimmera Region with large harvests. It is not always easy to scale up to secure truck drivers.	Alan Heard Pavilion
Seed Terminator	The X9 Seed Terminator is a simple attachment to the X9 combine harvester chaff distribution system that mechanically kills weed seeds before they become next year's weed burden. Integrated weed control designed to match the power of the industry's newest combine.	C12-14
SheerSpeed Shearing Products	The 'Woolmaster Wireless Control Handpiece' is a game-changer, driven by an overhead electric motor, it seamlessly collaborates with the 'SheepCounter.' Activated and deactivated effortlessly with the press of a thumb-operated flat switch, eliminating the need for cumbersome pull cords. The handpiece can be instantly shut down while still holding the animal. The 'SheepCounter' keeps an automatic tally of shorn sheep, eliminating the need for manual counting. When the handpiece is turned off, the counter increments by one.	V3

# BLACK SNAKE

PRODUCTIONS

WILDLIFE DISPLAYS & EDUCATION

Black Snake Productions has been traveling around Victoria and South Australia for well over a decade bringing our range of animals and a wealth of information to thousands of people across the rural areas of southern Australia.

The very popular venomous snake safety pit and talks allow the public to learn how to safely and effectively deal with venomous snakes in day to day life and how important they are to Australia's agricultural industry.

Our mobile zoo displays are also a big hit with families, allowing them to get up close and meet crocodiles, dingoes, pythons, wallabies, owls, giant lizards and more.

We are willing to travel anywhere in Victoria and south Australia and can add a unique, fun and educational aspect to any show or field day!

Licensed and with close to 20 years wildlife education Black Snake Productions is Victoria's leading provider of snake pit talks and wildlife education at events!

Black Snake Productions is fully insured.

Shows  
10:30, 12:00  
1:30, 2:30

"I have always found Black Snake Productions to be extremely professional and excellent presenters of wildlife education sessions. I simply cannot recommend them and their wildlife displays and demonstrations highly enough."

## New Releases 2024

Company Name	Product Description	Site Number
Spraytec	Fulltec Max, a multi-functional formulation that works to maximize spray performance with low-use rates and full pesticide compatibility and does not require additional additives. A unique blend of nutrients, phosphites and application technology that enhances crop productivity and profitability.	D49
Steele Steel	The Maxi Feeder Bulk Bin is our latest design after popular demand for a larger multi-purpose capacity holding bin. A 10 Tonne bin capacity on an all-terrain walker, great for bulk feeding and fertilising, feed lotting and working across undulating country. Made to customers specifications. Easy clean trap doors. Heavy duty PVC lined Auger (ideal for fertiliser). Australian Steel.	D30-31
Sturgeon Equipment	The ALL-NEW Sturgeon Counterweights comes in a range of sizes to suits your Ag-loader requirements. With their sleek and modern design, these counterweights are further enhanced by the optional toolbox and fire extinguisher features.	U2
Techgrow	Powerchain 800 is a disc cultivator that, with its unique diamond-shaped construction, fulfills many functions in the field. A cost-effective machine, the Powerchain has a wide range of functions, and helps deal with weeds, decompose plant debris, create false seedbeds and at the same time leveling the field. The Powerchain can handle in the field undulations leaving a level finish whilst at the same time ensures a full cut (2.5cm) under most conditions across the full working width.	N30-31
Traction Ag	Fendt Rogator 937. AGCO, a global leader in the design, manufacture and distribution of agricultural machinery and precision ag technology, has launched the new Fendt Rogator 900 Series applicator with adjustable clearance, a combo-chassis designed for multiple application systems as well as industry leading technology and first class performance and operator comfort. The only self-propelled, rear-mounted boom applicator with optional adjustable clearance on the market. We also offer a combo-chassis which allows the machine to be easily converted between liquid and dry systems for ultimate versatility. Visit the Traction AG site to see the new Fendt Rogator 937.	A62-72
